

Scenarios

Rules Card

Scenarios change the rules of Star Realms in exciting new ways! Before the game begins, shuffle the Scenario deck and deal out a Scenario card to determine the new rules for the game.

If a Scenario says to perform an action “before the game begins,” do this before setting up the game. If a Scenario says to perform an action “at the start of the game,” do this after all players have drawn their starting hands.

The Scenarios ‘Early Recruitment’ and ‘Picking Sides’ are only for two-player games. If you draw them in a multiplayer game, discard them and draw again.
