

5 LEGENDARY SPORTS MANAGERS

Each player receives a random Legendary Sports Manager Card at the beginning of the game and place it face up in front of them.

You may use your Sports Manager Card **only if you don't own** the Peas-And-Carrots Jersey. When you use your Sports Manager Card, flip it face down: you cannot use it again unless you reactivate it first.

Reactivating the Sports Manager Cards:

The player(s) with the fewest points may reactivate their Sports Manager Cards at the end of the round, after tallying the scores.

Special Rule:

If, at the end of a round, all Sports Manager Cards are face down, **they are all reactivated.**

LEGENDE

BROOM WAGON

At the end of each round, **the player who finished last** takes the Broom Wagon Card and place it face up in front of them.

Once per round, they may play it to **add +5** to their attack (add +5 to the value of your card, or combination of cards).

The Broom Wagon **cannot be** played with a Baroudeur (Hare).

It can be played with the Peas-And-Carrots card (add +15 to your attack).

SPECIAL RULES

Play a combination with cards of different colors, even if they don't have the same value. Each card must be of a different color.*

Play a combination of cards of the same value, and insert one card with a different value in this combination.*

Play a combination of cards of the same color, and insert one card of a different color in this combination.*

After you play a card or a combination of cards, immediately end the current attack, and start a new attack.

Multiply by 10 the value of a red card that you play alone (example: the red 5 is worth 50 points).

** Calculate the value of your combination as usual.*
